

Dear Patient—

On behalf of everyone at Women's Care Florida, I would like to thank you for choosing us for your health care needs.

As you may be aware, the rapidly increasing cost of professional liability insurance has contributed significantly to the rising costs of health care for everyone and has forced many physicians to raise their fees, limit their practices or leave the state of Florida to practice in other states that have more affordable options—which threatens Florida citizens' access to medical care. Many obstetrician-gynecologists who continue to practice in Florida are currently unable to afford professional liability insurance, leading many to practice without this coverage.

So that we can offer the coverage you deserve, Women's Care Florida—in partnership with our insurance carrier, MagMutual—has a binding arbitration program to settle all professional liability claims. Through this arbitration program, you and your Women's Care Florida provider benefit from a more prompt and efficient method of claims settlement in the unlikely event that such a claim is necessary.

Visit our website at www.womenscarefl.com to watch the binding arbitration video and review the frequently asked questions before your next visit. By accessing the video online, you will save yourself from having to arrive early to watch it before your next appointment. You will be asked to verify the fact that you have reviewed the video by signing an agreement before your exam.

Thank you for entrusting us with your health care!

Sincerely,

A handwritten signature in black ink that reads "Ignacio Armas, M.D." in a cursive style.

Ignacio Armas, M.D.
President of Women's Care Florida
